Subject : SUMMER 2026 INTERNSHIP INQUIRY: AI & ML Focus

Dear Hiring Manager, I hope this email finds you well. My name is Mayank Verma, and I

am a first-year B.Tech CSE (AI & ML) student at VIT

Bhopal University. I am writing to formally express my interest in a Summer 2026 internship opportunity within your organization. Having closely followed your recent developments, I am eager to contribute my technical foundation and professional advocacy skills to your engineering team. Currently, I serve as a Student Digital

Ambassador, a role where I spearhead initiatives

to optimize digital tools and professional communication within the student body. This

experience has not only sharpened my technical proficiency but also ingrained a

"Verification First" habit and a strong commitment to digital integrity and cybersecurity.

Technical Profile and Core Competencies:

- **Programming & Frameworks:** Currently mastering Python and basic programming concepts with a long-term focus on Generative AI and Scalable AI Pipelines.
- **Digital Branding:** Established a decentralized professional identity on GitHub, LinkedIn, and Kaggle to document my academic and project-based growth.
- **Analytical Problem Solving:** Utilizing HackerRank to strengthen logical thinking and Kaggle to explore real-world data science problems.
- **Professionalism:** Trained in corporate communication frameworks, ensuring clear, efficient, and respectful collaboration.

Portfolio Highlights:

- **GitHub :** Actively maintaining repositories such as School fee softwand Email-genAI.
- **LinkedIn :** Engaging with industry trends and networking with technical experts.
- **Kaggle :** Refining analytical modeling and data science skills.

I am highly motivated to gain practical experience, work on real-world projects, and learn from the experienced professionals at your firm. I have attached my resume for your review and would welcome the opportunity to discuss how my background in AI/ML and digital advocacy aligns with your team's goals.

Thank you for your time and consideration.

Sincerely,

Mayank Verma . Registration Number: 25BAI10369

B.Tech CSE (Artificial Intelligence and Machine Learning), 1st Year

VIT Bhopal University
